

FMC Secures Approval for Isoflex® Active in the European Union, Addressing a Critical Gap in the European Herbicide Market

2026-04-06

PHILADELPHIA, April 6, 2026 /PRNewswire/ -- FMC Corporation (NYSE: FMC), a leading global agricultural sciences company, today announced that Isoflex® active, the trade name for bixlozone, has received regulatory approval in the European Union (EU). This approval is a critical milestone in FMC's commercialization process, paving the way for the introduction of formulated products across more than 55 million planted hectares of cereals, corn, oilseed rape and potato in the EU. Product dossiers have been submitted for these crops, and pending regulatory decisions, FMC anticipates launching products powered by Isoflex® active beginning in 2027.

"The approval of Isoflex® active addresses a critical gap in agriculture in the European Union," said Sebastià Pons, vice president, president FMC EMEA. "Since the last herbicide approval in 2019, growers have lost access to more than 20 herbicide active ingredients. This approval reinforces our ability to develop and register advanced crop protection solutions that solve grower challenges and help strengthen Europe's agricultural economy."

Isoflex® active is classified by the Herbicide Resistance Action Committee (HRAC) as a Group 13 herbicide. The molecule provides lasting control of key grass weeds and a wide range of broadleaf weeds, offering growers a new mode of action in cereals, enabling them to effectively manage resistant weed populations and protect economically important crops across the EU.

The European launches will build on FMC's successful global rollout of products powered by Isoflex® active, which have already been registered and commercialized in Argentina, Australia, Brazil, Chile, China, Great Britain, Pakistan, Uruguay and India. Products containing Isoflex® active have exhibited pre-plant, pre-emergence and early post-emergence selectivity in major crops across the globe, including cereals, cotton, oilseed rape, rice and pulses. Research and development on the use of Isoflex® active in additional crops and segments is ongoing.

Statement under the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995: FMC and its representatives may from time to time make written or oral statements that are "forward-looking" and provide other than historical information, including statements contained in this press release, in FMC's other filings with the SEC, and in presentations, reports or letters to FMC stockholders.

In some cases, FMC has identified these forward-looking statements by such words or phrases as "outlook", "will likely result," "is confident that," "expect," "expects," "should," "could," "may," "will continue to," "believe," "believes," "anticipates," "predicts," "forecasts," "estimates," "projects," "potential," "intends" or similar expressions identifying "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including the negative of those words or phrases. Such forward-looking statements are based on our current views and assumptions regarding future events, future business conditions and the outlook for the company based on currently available information. The forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any results, levels of activity, performance or achievements expressed or implied by any forward-looking statement. These statements are qualified by reference to the risk factors included in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2025 (the "2025 Form 10-K"), the section captioned "Forward-Looking Information" in Part II of the 2025 Form 10-K and to similar risk factors and cautionary statements in all other reports and forms filed with the Securities and Exchange Commission ("SEC"). We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Forward-looking statements are qualified in their entirety by the above cautionary statement.

We specifically decline to undertake any obligation, and specifically disclaims any duty, to publicly update or revise any forward-looking statements that have been made to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events, except as may be required by law.
