Card@Once[®] Instant Issuance Solution Recognized As An Enterprise Product Of The Year

LITTLETON, Colo.--(BUSINESS WIRE)-- **CPI Card Group Inc.** (Nasdaq: PMTS; TSX: PMTS) (“CPI Card Group” or the “Company”), a global leader in financial and EMV[®] chip and dual interface card production and related services, has been named a silver winner in the Best in Biz Awards 2018. The Company’s instant issuance solution – **Card@Once[®]** – received the recognition in the Enterprise Product of the Year – All Other Products category.

Each year, the Best in Biz Awards’ entrants span the spectrum, from recognizable global brands to innovative local start-ups. Winners are determined based on scoring from independent judging panels composed of prominent editors and reporters from some of the most respected newspapers, TV outlets, and business, consumer, technology and trade publications in North America. This year, Card@Once from CPI Card Group was recognized for its innovation as a secure, compact instant card issuance solution that is web-based, quick to implement and easy-to-use. Card@Once gives branches the ability to respond immediately to customer requests for new and replacement cards.

Among the leading benefits of the Company’s Software-as-a-Service (SaaS) instant issuance model is that financial institutions don’t have to worry about maintaining any software or servers themselves. Unlike the responsibilities that come with Software-for-Purchase (SFP) models, Card@Once is designed so that CPI securely manages the IT support and maintenance for the solution. Further, because issuance is done instantly and in-branch, Card@Once users reduce costs by eliminating the need for mailing or shipping cards, while driving incremental activation rates, transactions and interchange revenue.

“We are honored to have Card@Once named a silver winner by the Best in Biz Awards,” said Lane Dubin, SVP and General Manager, Prepaid and Instant Issuance for CPI Card Group. “This recognition further validates the

remarkable value of our instant issuance technology, from both a customer experience perspective and a competitive differentiation standpoint for issuers. We look forward to helping more financial institutions experience Card@Once's potential in the years ahead."
