About LD Micro:

LD Micro was founded in 2006 with the sole purpose of being an independent resource in the microcap space.

What started out as a newsletter highlighting unique companies has transformed into several influential events annually (Invitational, Summit, and Main Event).

In 2015, LD Micro launched **ldmicro.com** as a portal to provide exclusive intraday information on the entire sector, including the first pure micro-cap index (LDMi) which covers stocks in North America with market capitalizations between $50 million to $300 million.
